

Press Release

On January 25th, 2023, the seventh Webinar will take place, within the scope of the West Adapta Project, through the online zoom platform. The initiative will count on the participation of the Norwegian partner, Vestlandsforskning (Western Norway Research Institute).

The reception of the participants will be at 09:55h, followed by the balance of the work and the situation.

Parallel sessions will then be held with the Municipal Technicians in order to analyze the respective Strategy and measures for adapting the territory to climate change.

After the break, it will be time for Carlo Aall, representative partner of Vestlandsforskning (Western Norway Research Institute) to make his intervention and talk about adapting to climate change in Norway.

Finally, the Plan Management Models Methodology and the Monitoring System Methodology will be addressed, ending the session with the next steps of the Project.
